

# Where do your nickels go?

## Little Wishes™ Makes A Big Difference And So Can You!

Founded in San Anselmo by two local pediatric oncology nurses, the non-profit Little Wishes™ has helped seriously ill, hospitalized Bay Area children from losing their identity to illness by tapping into their passions. We encourage even the tiniest of patients to identify their happiest desire and wish for something that will fill their heart and brighten their darkest days.

Each wish, no matter how simple – a princess dress, Spiderman figurine, book or a musical instrument – makes a huge difference by providing a welcome diversion and easing the discomfort of long hospitalizations and painful treatments.

What makes our Little Wishes™ program unique (and why we keep the wishes little) is that a child may make another wish 14 days after receiving their first little wish, and every 14 days thereafter. This is really meaningful for children who endure frequent hospitalizations or for a child who has been in the hospital for weeks or months, even years at a time.

Little Wishes™ has granted thousands of wishes to local Bay Area children since 2003 and our current quest is to raise enough funds to keep on granting children's wishes in perpetuity. Your support will make a huge difference! Over 90 percent of every dollar donated goes directly to children's little wishes.

We would like to thank United Markets' customers and community for your generous donation in support of our organization, Little Wishes™!
