

# WHERE DO YOUR NICKELS GO?

## HUMANE SOCIETY INTERNATIONAL

### UKRAINE EMERGENCY RESPONSE

Humane Society International is providing necessary support, including emergency funds, to groups that are helping the Ukrainian people and the animals in their care who have been devastated by Russia's military invasion.

Amid the chaos, shelters, rescue groups and veterinary clinics in Ukraine are trying to keep their operations going, making every effort to provide safety and urgent care to animals caught up in the conflict. Relief workers and organizations are also doing all they can to clear the way for emergency entry into neighboring nations for Ukrainians with pets.

In many cases, they are helping families and individuals who cannot flee but are trying to hold onto and care for their pets and other animals. With no time to waste, HSI is prioritizing support to shelters, rescue groups and veterinary clinics in Ukraine.

Your donation is restricted to the Humane Society International Animal Rescue Fund and will directly support lifesaving work to protect animals. Please, help us donate to provide urgent aid and rescue for animals in and fleeing Ukraine.
