

WHERE DO YOUR NICKELS GO?

DEDICATION TO SPECIAL EDUCATION

Dedication to Special Education is proud to have United Markets as a community partner. Ours is a partnership where parents, educators, and the wider community work together on behalf of the over 4,000 students receiving special education services.

Dedication to Special Education is an all-volunteer parent organization raising awareness and funds for special education in Marin County. Their fundraising maintains a grants program, provides trainings, and supports the Technology Resource Center of Marin in order to enhance educational opportunities for teachers and students.

For 19 years, their parent-volunteer organization has looked to United Markets to help special education in Marin County through sponsoring special events and promoting the importance of community

involvement through advertising and direct support.

In continued support, this year United Markets teamed up with Dedication to Special Education to promote the 19th Annual Benefit Car Raffle with Toyota Marin. As a result of this partnership, one lucky person will win a 2024 Rav4 Hybrid!

In truth, the real winners are the 4,000 students who will have access to innovative technology and other resources, which provide meaningful access to not only their curriculum, but to their entire school experience.

Thank you, United Markets, on behalf of the 4,000 kids in special education in Marin, their families, and their teachers!
