

# WHERE DO YOUR NICKELS GO?

Marin Community Clinics' mission is to promote health and wellness through excellent, compassionate care for all.

Marin Community Clinics has provided compassionate and affordable health care to uninsured and low-income residents of Marin County since 1972. They have grown from humble beginnings where volunteer physicians and nurses saw patients in church basements, to a 21st century provider with modern facilities, expert paid physicians and nurses, the latest technology, and sophisticated diagnostic, treatment and prevention programs. Today, they serve more than 38,000 individuals every year in clinics spread throughout Marin.

As the largest community health center in the County, they play a major role in Marin's health care network, serving patients with insurance as well as those who are ineligible for insurance coverage.

Marin Community Clinics provides a full range of primary health care as well as dentistry, behavioral health, obstetrics & gynecology, family planning, optometry, chiropractic, and several specialty services. Learn more and donate at [marinclinic.org](http://marinclinic.org)
