SAN RAFAEL PUBLIC EDUCATION FOUNDATION

HeadsUp is the San Rafael Public Education Foundation. They bring critical enrichment and support programs to our schools, providing equitable opportunities for students while building community district-wide.

Together, San Rafael City schools serve over 7,000 students from Transitional Kindergarten through high school at 11 schools. These schools represent the diverse, multicultural community that makes up San Rafael. Help support the school district's mission to build a school system of unparalleled quality that helps all students acquire the knowledge and skills they need to become productive, responsible citizens of the future.

LEARN MORE AT HEADSUPSR.ORG

HeadsUp is made up of parents, school administrators, business people, and active members of the community who, since 1982, have raised millions of dollars to supplement our schools' budgets. Like most California districts, San Rafael City Schools cannot provide the level of enrichment and corollary support services that the best prepared 21st-century students require. HeadsUp is committed to raising the additional funds necessary to ensure the quality education San Rafael students deserve!
