

# WHERE DO YOUR NICKELS GO?

# wildcare

WildCare delivers world-class medical care in our open admission wildlife hospital, together with exceptional environmental education, community engagement, and effective advocacy for the protection of wildlife and our shared habitat.

WildCare is a wildlife hospital, nature education center and wildlife advocacy organization located in San Rafael, California. Each year they treat nearly 3,500 ill, injured, and orphaned wild animal patients in the Wildlife Hospital, reach over 13,000 children and adults through their Terwilliger Nature Education Programs, and help thousands of people everywhere to live well with wildlife.

WildCare envisions a future in which humans are committed stewards of the natural world and transform conflict with wildlife into coexistence. As human habitation continues to expand into the wild places that surround us, people and wildlife increasingly find themselves calling the same places home. Everyone wants to do the right thing for wildlife, WildCare is here to help!

WildCare extends immense gratitude to United Markets for being chosen as the January Nickel Jar Recipient. Your donation not only promotes their mission to live well with wildlife but raises vital funds for WildCare's full cycle of programs.
